Dear Parent/Carer

Administering non-prescription pain relief to students

Please be aware that, after a recent review of school policy, school staff will no longer be permitted to provide or administer non-prescription medicines such as paracetamol or ibuprofen to students. Students will be permitted to bring no more than 2 paracetamol/ibuprofen to school with them per day, if required.

The above change to protocol does not affect medicines administered to students as part of an agreed care plan.

Thank you for your co-operation.

Yours faithfully

Kristy Pascoe
Deputy Headteacher (Pastoral)
